Name: Paul Gerald D. Pare

Section: 10-Hawking

Activity 1: Use your senses!

Direction: Read the do (act) the following statements below. Write down that senses of the body should you use to properly complete each task.

1. All of your senses except smell, taste and hearing. (Sight, touch, feel, kinesthesia, tactile system)
2. All of your senses except smell and taste. (Sight, touch, feel, hearing, kinesthesia, tactile system)
3. All of your senses except smell, taste and hearing. (Sight, touch, feel, kinesthesia, tactile system).

Guide Questions:

1. I feel like it's normal to do this task because we are used in the senses that we use everyday. Body sense that are used are Hearing, touch, feel, kinesthesia, and tactile system. touch
2. They are vitally important for us to do an action, without one of them, we might not be able to do an important task like eating, walking, etc.
3. Yes I do think that robots can have body senses but they would not be as complex, great, and smooth as human body senses do. Movement in robots are limited to what they are programmed to, even artificial intelligence has limit on how it can move physically.
