Project **WOW: (5)Words in One Week**

QUARTER: 3 WEEK 3

Name: Paul Gerald D. Pare

Grade and Section: 10 - Hawking

MONDAY (February 28, 2021)			
WORD:	Wade	SUBJECT:	Research
ETYMOLOGY:	From Middle English waden		
MEANING/DEFINITION:	To walk through water or something that impedes progress.		
SYNONYMS:	Phasing, walk		
ANTONYMS:	Stand, static		
SENTENCE:	Go to the center of the river channel or body of water where the water is deepest and current has the greatest velocity.		

TUESDAY (March 1, 2021)			
WORD:	Gantt	SUBJECT:	Research
ETYMOLOGY:	From Henry L. Gantt, US Engineer		
MEANING/DEFINITION:	(Statistics), formally known as gantt chart, is a graphical		

	representation of the tasks and resources needed to complete a job or project; may show ranges of possible start and end dates and the relationships between tasks; used to pinpoint bottlenecks and assign priorities.
SYNONYMS:	Bar chart, Timeline
ANTONYMS:	Calendar, Pie chart
SENTENCE:	One of the first use case of gantt charts is in World War I. Later in 1999, it was considered to be as one of the most widely used management tools for project scheduling and control. In research, this is important to be shown in your documentation as this will show the progress of your experiment.

WEDNESDAY (March 2, 2021)			
WORD:	Anthropomorphism	SUBJECT:	English
ETYMOLOGY:	From Ancient Greek anthropos, “man, human being”		
MEANING/DEFINITION:	The attribution of human characteristics and behaviour to something not human.		
SYNONYMS:	Personification, Humanism		
ANTONYMS:	Dehumanization		
SENTENCE:	Anthropomorphism is also considered to be a type of literary technique where it is very similar to personification that animals or inanimate objects are portrayed in a story as people.		

THURSDAY (March 3, 2021)			
WORD:	Heterodyne	SUBJECT:	Electronics
ETYMOLOGY:	From hetero- + dyne		

MEANING/DEFINITION:	Of two oscillations: having two slightly different frequencies such that, when combined, they produce a beat.
SYNONYMS:	Converter
ANTONYMS:	Inverter
SENTENCE:	A supersonic heterodyne wireless receiver is developed to provide an additional level of selectivity.

FRIDAY (March 4, 2021)			
WORD:	Homeostasis	SUBJECT:	Science
ETYMOLOGY:	From ancient greek homois, "similar, the same"		
MEANING/DEFINITION:	The ability of a system or living organism to adjust its internal environment to maintain a state of dynamic constancy; such as the ability of warm-blooded animals to maintain such stable temperature		
SYNONYMS:	Balance, Adapt		
ANTONYMS:	Static, Fixed		
SENTENCE:	Homeostasis is perhaps a crucial role for reptiles because they need to go from land and water from time to time, therefore adjusting their body temperatures to adapt in the environment is more frequent.
